You don’t need to choose So choose

With Sensilis you don’t need to choose either gentle or performing skincare.

Treating your skin condition or your aging; Pleasure or health.

Procedures or skincare.

Sensilis beliefs

A pioneer skincare brand

Born in a lab in 1979, Sensilis brings over four decades of research dedicated to sensitive skin.

With a focus on sensitive skin longevity, Sensilis is the only dermocosmetic brand offering a comprehensive approach to both dermatological conditions and degrees of aging, through the

Sensilis compromise: Stay by the patient throughout all the different life stages.

Sensilis targets longevity

Our Mission: Sensitive Skin Longevity

"Our purpose is to promote
healthy, resilient skin,
free from premature aging"

Dr. Alicia Barreiro
Scientific Advisor of Sensilis
Specialist in Medical /
Surgical Dermatology and Venereology

Understanding sensitive skin

70%

of people suffer sensitive skin*

Intolerant & Reactive Skin

Visible Signs

- Redness
- Burning
- Itching
- Swelling

Sensitive skin is not merely a vascular inflammatory condition; it reflects immune dysregulation rooted in sebaceous gland microenvironment, where low grade inflammation and barrier impairment interact.

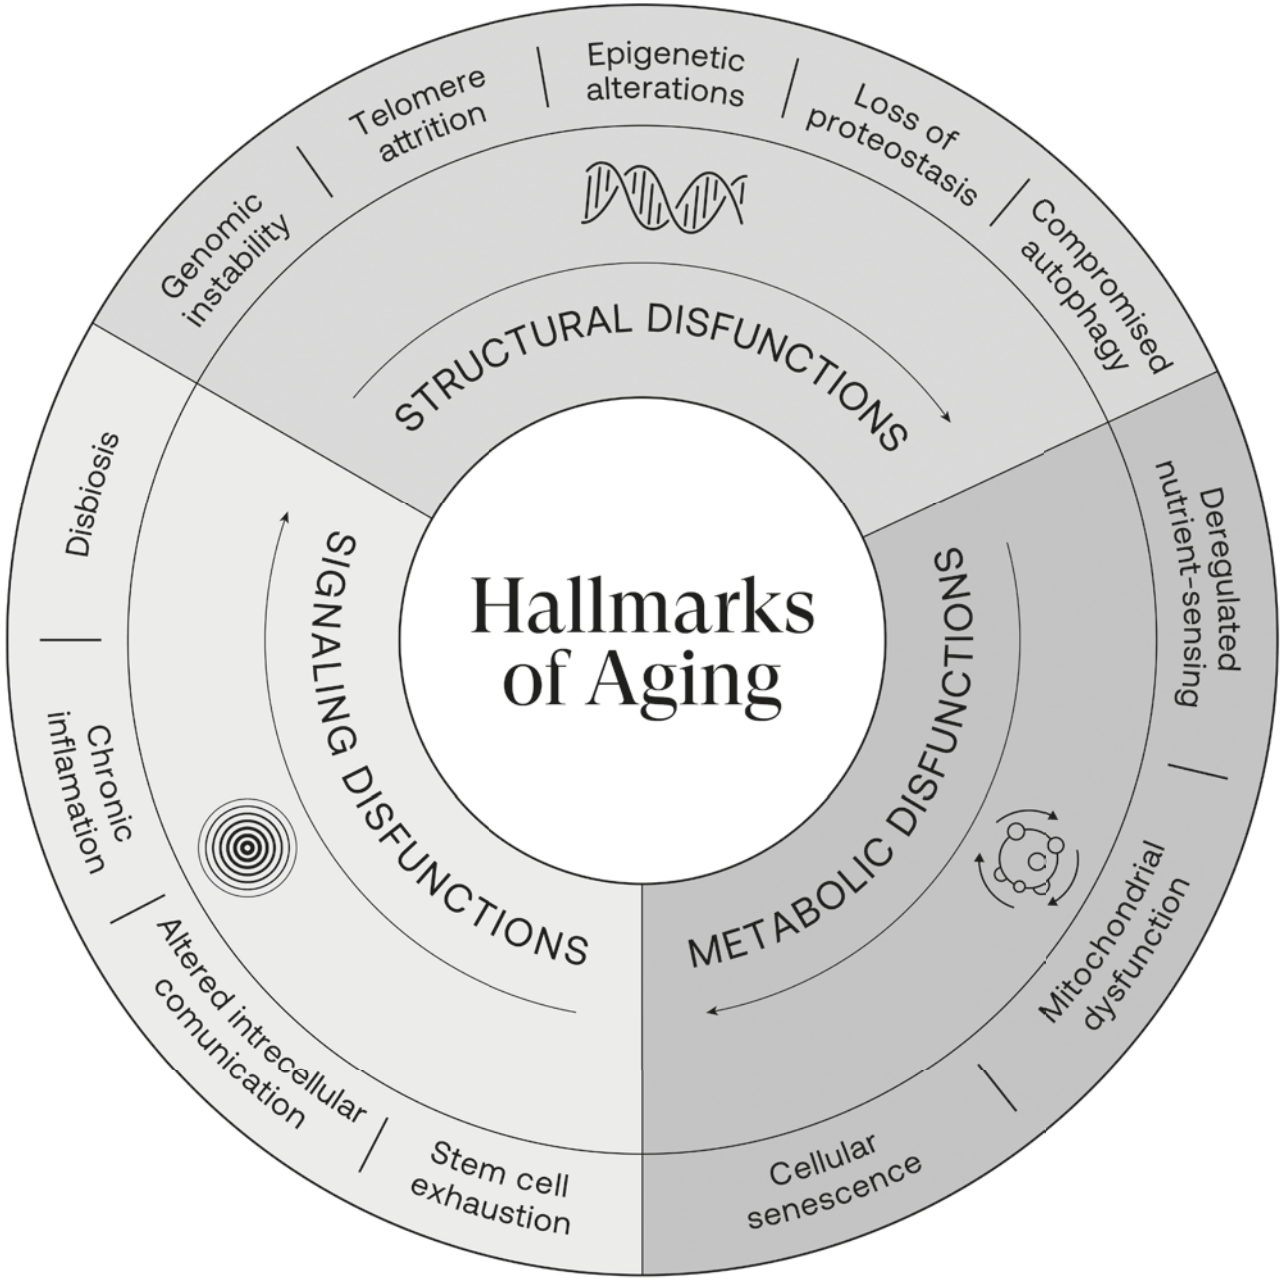

*Farage MA (2019) The Prevalence of Sensitive Skin. Front. Med. 6:98.doi: 10.3389/fmed.2019.00098.
Spanish people who say they have undergone a medical aesthetic dermatology treatment at some point (71.8% female). Source: Spanish Society of Cosmetic Medicine Study 2021 (SEME).

From Antiaging to Longevity

How slow you age

During ages medicine has focused on treating diseases. Research and technology giant steps are setting a new target: longevity.

When addressing skin health and longevity we need to target the root causes of premature aging.

Sensilis Dermatology Longevity System™

At Sensilis, every protocol, product or formula is designed targeting a specific patient considering underlying skin condition & biological aging level.

Glogau Scale: Aging Level

Skin conditions	Mild	Moderated	Advanced	Severe	Pre-treatment	Hygiene	Urban Sun protection	Make-up	High exposure sun protection
Skin with redness or prone to rosacea									Face
Acne / Oily skin									
Hyper-pigmentation / Melasma									Body
Healing / Regeneration									
Dehydration / Skin Barrier									Pediatrics

From Antiaging to Longevity

Sensilis skincare focuses on key Hallmarks of aging, mainly on inflammaging.

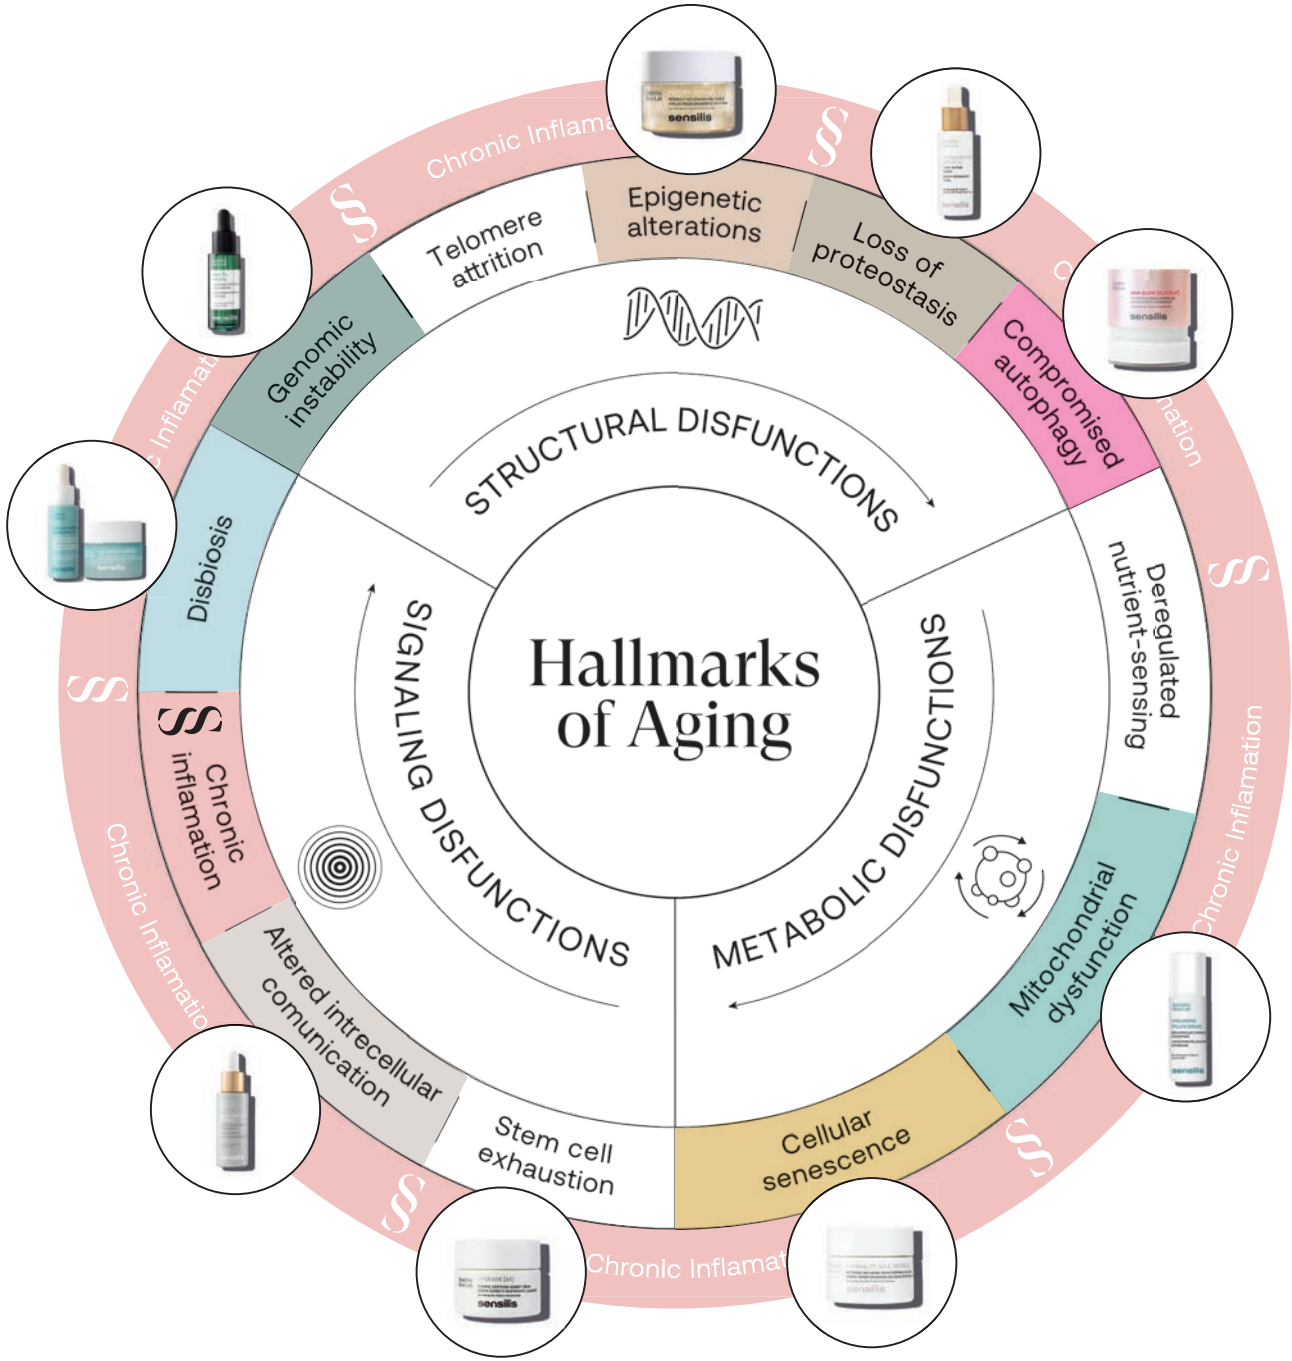

By reducing low grade chronic skin inflammation, on skin with pathology or sensitive skin, we aim to achieve skin health for optimal anti-aging results.

Inflammatory cytokines secreted into the skin will produce destructive changes that we see as we age: wrinkles, loss of collagen, dryness, pigmentation, and skin sensitivity.

Inflammaging is caused by exposome, barrier disfunction, and pathology.

From Antiaging to Longevity: Target the Hallmarks

Sensilis targets inflammaging first & secondary hallmarks according to biological age.

How we do what we do
Brand principles

You don’t need to choose either high performance or high tolerance, a premium sensorial experience or sustainable practices, because Sensilis delivers all.

01 Proven efficacy

02 Sensoriality

03 Sustainability

Art of formulation

Avantgarde formulas

We carefully research for safe, high-performance active ingredients and advanced delivery systems to optimize performance addressing hallmarks of aging.

Proven efficacy

“No test, no claim” objectively tested on different skin conditions and age groups, such as melasma, acne, and rosacea-prone skin.

Maximum tolerance for sensitive skin

We also integrate soothing agents, skin barrier-repair ingredients, and microbiome-balancing actives to strengthen the resilience of sensitive skin.

Patient-centered sensorial experience

Designed not only for pleasure, but to enhance treatment adherence and long-term compliance.

Sustainability & quality assurance

All products are developed with a commitment to sustainability and certified according to ISO standards.

Proven efficacy: “No test, No claim”

Driven by our strong value: scientific honesty, we are proud to follow a no test, no claim mantra.

To demonstrate our efficay we test and claim results only:

_Final Product versus cosmetic Ingredients
_Objective versus subjective values
_Average versus maximum values
_Skin compatibility test on sensitive skin (H.R.I.P.T.)
_Specific Panel test for certain pathologies and age.
_Clinically and dermatologically tested on sensitive skin.
_Ophthalmologically tested (eye contour).

Non comedogenic
Maximum safety
Vegan formula
Dermatologically
tested on sensitive skin

Final Product efficacy tests: “No test, No claim”

01 Monotheraphy efficacy test

**In vitro* test + *In vivo* test: Clinical evaluation in 40 volunteers aged 45+ with type 1 rosacea and couperose over 3 months.

Eternalist A.G.E. [Retinol]

The 1st antiaging transforming cream with retinol for rosacea-prone skin.

In vitro test*

+16%

Collagen in 48h

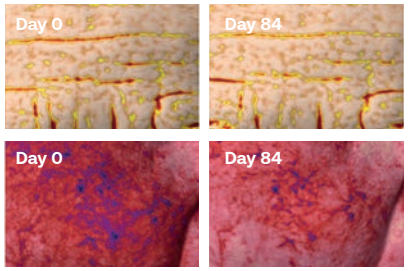

+17%

Elastin in 48h

+48%

Cell regeneration speed in 48h

Clinical assessment*

02 Combined efficacy test

Clinical study in 30 male and female volunteers aged 35 to 62 with combination, oily or acne-prone skin after 1.5 mm microneedling over 56 days.

Pure Age Perfection [Cicakn Serum]

Maintains, prolongs and improves the results of medical/ aesthetic procedures.

_Acne blemishes
_Sebum
_Pores [area and density]
_Skin softness
_Skin evenness

Final Product efficacy tests: “No test, No claim”

03 Post-procedure tolerance test

*Clinical study in 45 female volunteers aged 21 to 60 with normal and combination sensitive skin post-Jessner peel.

Skin Rescue [Barrier]

Barrier function repair cream with 100% tolerance post-medical aesthetic procedure.

_CO2 and Q-Switched lasers
_IPL
_Microneedling
_Peels

04 Post procedure healing test

*Clinical study in 20 female volunteers with sensitive skin prone to mild rosacea post-Jessner peel.

10d Recovery kit

Reduces redness and reduce downtime from medical aesthetic procedures by 2 days in sensitised skin.
