## 10d Recovery kit\*

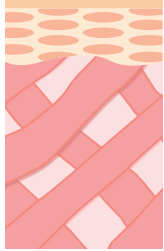

Post-Cosmetic Medical Procedure

Reduces redness and shortens recovery time after aesthetic medical treatment.

\*With 5 Growth Factors & CM-Naringenin Chalcone®

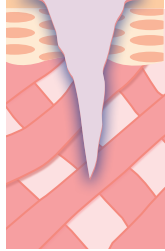

# 10D RECOVERY KIT

A

**Untreated skin.**

B

**Ablative fractional laser:**

The laser vaporises the superficial layers of the skin, creating an area of thermal injury in the adjacent tissues (illustrated in purple).

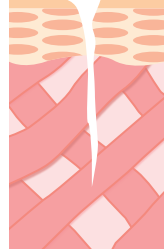

C

**Non-ablative fractional laser:**

The laser heats the of the skin and denatures them in a in a fractional manner.

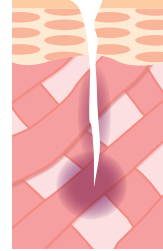

D

**Microneedling :**

Micro-perforations are created in the skin with fine needles, without causing any ablation of the skin.

E

**Microneedling with radio-frequency:**

In addition to micro-perforations, the heat from causes thermal damage to the surrounding tissues.

F

**Fractional tissue sampling:**

Fine needles are used to extract tissue, causing tissue loss without causing thermal injuries.

*REDUCES TIME / SOOTHES / REGENERATES*

## ORIGIN PRO [Ampoules]

### REGENERATES

- 5 Growth factors (EGF, acidic FGF, basic FGF, IGF, VEGF)

## UPGRADE [AR]

### CALMS

- CM-Naringenin Chalcone
- Ginkgo biloba

### PROTECTS

- Pentapeptide-31
- Pentapeptide-28

### ANTIPOLLUTION

- Biosaccharide GUM-4
- Plant stem cell extract

### HYDRATES

- Hyaluronic acid
- Panthenol

### REPAIRS

- Shea butter

### PRO-AGING

- Soybean extract
- Red rice extract Oat
- Polysaccharides
