YOU DON'T NEED TO CHOOSE
SO CHOOSE

With Sensilis you don't need to choose either
gentle or performing skincare.

Treating your skin condition or your aging;
Pleasure or health.
Procedures or skincare.

A pioneer skincare brand

sensilis | Sensitive
Skin Lab

Born in a lab in 1979, Sensilis brings over four decades of research dedicated to sensitive skin.

With a focus on **sensitive skin longevity**, Sensilis is the only dermocosmetic brand offering a comprehensive approach to both dermatological conditions and degrees of aging, through the

§ | Sensilis Dermatology Longevity System™

Sensilis compromise:
Stay by the patient throughout all the different life stages.

A portrait of Dr. Alicia Barreiro, a woman with long, wavy brown hair, wearing a dark blue top and a gold necklace. She is smiling slightly and looking towards the camera. The background is a soft, out-of-focus brown.

**Our Mission:
Sensitive Skin Longevity**

“Our purpose is to promote
healthy, resilient skin,
free from premature aging”

Dr. Alicia Barreiro
Scientific Advisor of Sensilis

Specialist in Medical / Surgical Dermatology and Venereology

70% of people suffer sensitive skin*

Visible Signs

Intolerant & Reactive Skin

- Burning _____
- Itching _____
- Swelling _____

Root Causes

Sensitive skin is not merely a **vascular inflammatory condition**; it reflects **immune dysregulation** rooted in sebaceous gland microenvironment, where low grade inflammation and barrier impairment interact.

*Farage MA (2019) The Prevalence of Sensitive Skin. Front. Med. 6:98.doi: 10.3389/fmed.2019.00098. Spanish people who say they have undergone a medical aesthetic dermatology treatment at some point (71.8% female). Source: Spanish Society of Cosmetic Medicine Study 2021 (SEME).

HOW SLOW YOU AGE

During ages medicine has focused on treating diseases. Research and technology giant steps are setting a new target: **longevity**.

When addressing skin health and longevity we need to target the **root causes** of premature aging.

At Sensilis, every protocol, product or formula is designed targeting a specific patient considering underlying **skin condition & biological aging level.**

SKIN CONDITIONS

		Glogau Scale: Aging Level								
		MILD	MODERATED	ADVANCED	SEVERE	PRE-TREATMENT	HYGIENE	URBAN SUN PROTECTION	MAKE-UP	HIGH EXPOSURE SUN PROTECTION
SKIN CONDITIONS	Skin with redness or prone to rosacea									FACE
	Acne / Oily skin									
	Hyper-pigmentation / Melasma									BODY
	Healing / Regeneration									PEDIATRICS
	Dehydration / Skin Barrier									

Sensilis skincare focuses on key Hallmarks of aging, mainly on inflammaging.

By reducing low grade chronic skin inflammation, on skin with pathology or sensitive skin, we aim to achieve skin health for optimal anti-aging results.

Inflammatory cytokines secreted into the skin will produce destructive changes that we see as we age: wrinkles, loss of collagen, dryness, pigmentation, and skin sensitivity.

Inflammaging is caused by exposome, barrier dysfunction, and pathology.

Sensilis targets **inflammaging** first & secondary **hallmarks** according to biological age.

You don't need to choose either high performance or high tolerance, a premium sensorial experience or sustainable practices, because Sensilis delivers all.

- **Avantgarde formulas:** We carefully carefully research for safe, high-performance active ingredients and advanced delivery systems to optimize performance addressing hallmarks of aging.
- **Maximum tolerance for sensitive skin:** We also integrate soothing agents, skin barrier-repair ingredients, and microbiome-balancing actives to strengthen the resilience of sensitive skin.
- **Proven efficacy:** “No test, no claim” objectively tested on different **skin conditions** and age groups, such as melasma, acne, and rosacea-prone skin.
- **Patient-centered sensorial experience:** Designed not only for pleasure, but to enhance treatment adherence and long-term compliance.
- **Sustainability & quality assurance:** All products are developed with a commitment to sustainability and certified according to ISO standards.

Driven by our strong value: scientific honesty, we are proud to follow a **no test, no claim** mantra. To demonstrate our efficacy we test and claim results only:

- Final Product **versus** cosmetic Ingredients
- Objective **versus** subjective values
- Average **versus** maximum values
- Skin compatibility test **on sensitive skin (H.R.I.P.T.)**
- Specific Panel test for certain pathologies and age.
- Clinically and dermatologically tested on sensitive skin.
- Ophthalmologically tested (eye contour).

Non comedogenic | Maximum safety | Vegan formula | Dermatologically tested on sensitive skin

1 MONOTHERAPY EFFICACY TEST

**In vitro* test + *In vivo* test: Clinical evaluation in 40 volunteers aged 45+ with type 1 rosacea and couperose over 3 months.

Eternalist A.G.E. [Retinol]

The 1st antiaging transforming cream with retinol for rosacea-prone skin.

In vitro Test*

Speeds up cell regeneration, redensifies and increases elasticity.

+16%	+17%	+48%
Collagen in 48h	Elastin in 48h	Cell regeneration speed in 48h

Clinical assessment*

2 COMBINED EFFICACY TEST

Clinical study in 30 male and female volunteers aged 35 to 62 with combination, oily or acne-prone skin after 1.5 mm microneedling over 56 days.

Pure Age Perfection [Cicakn Serum]

Maintains, prolongs and improves the results of medical/ aesthetic procedures.

- ✓ Acne blemishes
- ✓ Sebum
- ✓ Pores [area and density]
- ✓ Skin softness
- ✓ Skin evenness

3 POST-PROCEDURE TOLERANCE TEST

*Clinical study in 45 female volunteers aged 21 to 60 with normal and combination sensitive skin post-Jessner peel.

Skin Rescue [Barrier]

Barrier function repair cream with 100% tolerance post-medical aesthetic procedure.

- ✓ CO2 and Q-Switched lasers
- ✓ IPL
- ✓ Microneedling
- ✓ Peels

4 POST PROCEDURE HEALING TEST

*Clinical study in 20 female volunteers with sensitive skin prone to mild rosacea post-Jessner peel.

10d Recovery kit

Reduces redness and reduce downtime from medical aesthetic procedures by 2 days in sensitised skin.
