PREP₄+ [DROPS]

Accelerates the exfoliating action,
potentiates anti-ageing action

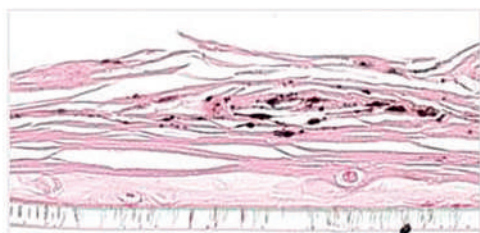

Dermatologically tested on sensitive skin

SKIN RENEWAL SLOWS DOWN AS WE AGE

Epidermal renewal and ageing¹

Mature skin

01

ACCUMULATED CELLS IN THE EPIDERMIS²:

It hinders the absorption of small active ingredients such as growth factors and retinol.

02

REDUCED COLLAGEN FORMATION²:

Less elastic, less elastic skin and poorer appearance.

03

INCREASE IN IMPERFECTIONS²:

Visible pores, blackheads and blemishes.

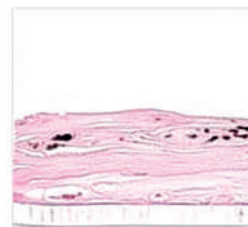

04

SIGNS OF AGEING²:

Dull, dull skin and visible wrinkles.
